VelillaGroup. Equipped for living

Committed to dressing today's and tomorrow's workers

Velilla Group is a family-owned company with **over 75 years of experience in the design, manufacturing, and distribution of technical and professional clothing.** Our history is built on quality, continuous innovation, and a strong commitment to our clients.

Over the decades, we have evolved without losing sight of our main goal: **to offer closeness, excellence, and adaptability to our clients.** Thanks to our presence in multiple markets and a solid network of offices and strategic partners internationally, we support our clients wherever they are, offering effective and personalized textile solutions.

Our catalog is born from deep industry knowledge and active listening to those who trust us. We **prioritize functionality, comfort, and style, developing garments** that meet the demands of every work environment without compromising on design or detail.

In every project, big or small, we aim **to offer** not just a product, but **a fast, close, and professional service experience.**

Our responsiveness, the versatility of our offering, and the trust of thousands of companies make us a benchmark in corporate and promotional clothing.

A logistics center ready to lead the present and the future

We have a state-of-the-art logistics center, equipped with the latest technology, located in Albacete. After its recent expansion, it covers nearly **27.000 m² doubling** its operational and storage capacity. Thanks to this infrastructure, we can **store over 24 million garments** and process more than **500.000 orders per year**, ensuring fast and efficient preparation in under 24 hours.

We rely on cutting-edge technology and an organization optimized by intelligent systems, allowing us to reach a **daily preparation capacity of up to 100,000 garments**, handling both large volumes and personalized orders nationally and internationally.

In-house printing workshop

Integrated into our logistics center, we have a **1.500 m² marking workshop** equipped with the latest machinery to offer **screen printing, DTF, transfer, and embroidery services**. Our technical team provides personalized advice to each client to achieve the best result on every garment.

We are firmly committed to sustainability: we are one of the first workshops certified under **Textile Exchange standards** (RCS, GRS, and OCS), ensuring full **traceability and certification** of printing on our sustainable clothing lines, made with recycled or organic materials.

All of this allows us to offer a **comprehensive, fast, flexible, and environmentally responsible service**, tailored to the needs of a constantly evolving market.

VelillaGroup.

Equipped for living

Our brands

Velilla Group manufactures three major international brands: VELILLA, VPRO and MUKUA, whose catalogues incorporate new references and are constantly updated.

velilla

Is our leading brand specializing in workwear, with an extensive catalogue of over 500 references divided into 5 families:

- High Visibility
- Industry
- Food Industry
- Health and Services
- Hospitality

V/PRO

Is our safety footwear brand.

Our products, certified in compliance with all current regulations, are backed by the best customer service.

We create designs focused on the needs of professionals aiming to develop the best safety footwear on the market, offering a wide variety of colours that combine perfectly with Velilla workwear uniforms.

MUKUA

Is our promotional textile brand.

It is modern and creative and has a well defined commitment: to offer our customers the style and comfort that most inspires them.

All this without forgetting sustainability through our eco-responsible line: MUKUA Natura, which consists of garments that comply with the Global Recycled Standard (GRS), Recycled Content Standard (RCS), Organic Content Standard (OCS) and OEKO-TEX.

Greenproject.

by Velilla Group

For years, at Velilla Group we have been working with a future-oriented vision, developing a solid value proposition for our clients and generating a positive impact on the environment around us.

We are firmly convinced of the key role that companies play as agents of social transformation. That's why we take responsibility for actively contributing to long-term sustainable development, ensuring respect for social and environmental needs.

In this context, the Green Project was born—a program that encompasses and drives our action plan and environmental commitment, reaffirming our dedication to a more conscious, responsible, and sustainable business model.

More information at: www.velilla-group.com/en/greenproject

The 3 pillars of the Green Project are:

Support for sustainable initiatives

- Reduction of physical prototype samples
- Monitoring our carbon footprint
- Reduced paper consumption and responsible printing of our catalogues

Sustainability projects

Development and research of projects that contribute positively and tangibly to society, creating sustainable development.

Product – New developments

Launch of sustainable lines with certifications such as Eco-design, as well as others that certify the use of organic and recycled materials

velilla-group.com

This catalogue is printed on PEFC certified paper

The raw material comes from forests certified by independent experts to ensure that they are managed according to strict national and international standards. In this way, we contribute to halting deforestation and are supporting foresters and forest owners who care for and manage their forest land sustainably.

Our certifications

At Velilla Group, sustainability is a core part of our development strategy and our commitment to the environment. That's why we continuously work to incorporate environmental criteria at every stage of our product life cycle.

As part of this commitment, each new launch includes sustainable clothing lines, designed and manufactured with environmentally friendly raw materials. These include organic cotton, grown without pesticides or chemical fertilizers, and recycled polyester, obtained from post-consumer plastic waste—contributing to reduced environmental impact and the circular economy.

Through these initiatives, we reaffirm our responsibility as a company and move toward a more conscious, responsible textile model aligned with the Sustainable Development Goals.

In addition, we hold various certifications that guarantee our commitment to sustainability.

- **UNE-EN ISO 14001**

Regulation that governs environmental management in companies, helping to control and minimize their impact.

- **UNE-EN ISO 14006**

Certifies that the organization works to reduce the environmental impact of its products from the design phase and reports on improvements.

**STANDARD
100**

- **OEKO-TEX®**

Ensures garments are free from harmful substances, complying with the European REACH regulation that limits toxic chemicals and metals.

- **Textile Exchange**

We are moving toward a more sustainable and responsible future. We are proud to have obtained three prestigious international certifications:

- **Global Recycled Standard (GRS):**

Certifies recycled content, traceability, chemical safety, and good social and environmental practices. Certified garments contain at least 50% recycled material.

- **Recycled Content Standard (RCS):**

Ensures that products with less than 50% recycled material are traceable and genuinely contain recycled materials.

- **Organic Content Standard (OCS):**

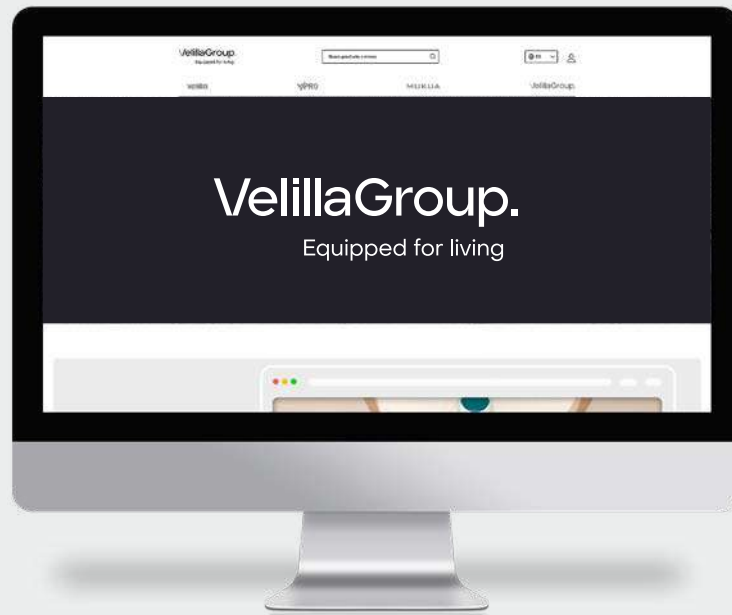

Certifies the presence of organic materials in the stated amount and compliance throughout the supply chain.

- **We are part of amfori**

We are members of Amfori, the world's leading association for sustainable trade, reinforcing our commitment to ethical and responsible practices throughout our supply chain.

High Visibility

Our wide range of certified products improves the visibility of workers in hazardous conditions, thereby reducing the likelihood of accidents and improving their safety. This set of garments has been especially conceived to adapt to the needs and requirements of each industry sector or profession.

Thanks to its certification, we guarantee that its design complies with strict standards and has excellent signalling capabilities thanks to its fluorescent colour and reflective tapes.

Do you know our segmented tape range?

Its application through heat sealing ensures perfect integration with the garment, **without seams**, providing the user with total freedom of movement.

In addition, our **Hi Vis Cotton fabric**, in which the cotton fibers are placed on the inner side of the fabric, in direct contact with the skin, offers greater **softness** and excellent **breathability**.

HI VIS Cotton

Do you know our Hi Vis Cotton range?

We have combined **technology and comfort** to offer professionals the best ally in their work: our **Hi Vis Cotton** fabric. Thanks to an innovative manufacturing process, its structure is constructed in such a way that the **cotton fibres** remain in contact with the user's skin, while the polyester on the outside ensures that the garments do not lose reflectance or certification capacity. Discover our wide range of products and let yourself be seduced by their **breathability, softness and comfort**.

Safety Footwear

Our VPRO safety footwear is certified in accordance with the latest European regulation EU 2016/425 (PPE) and under the updated standards:

EN ISO 20345:2020+A1:2024 (PPE. Safety footwear.)

EN ISO 20347:2022+A1:2024 (PPE. Occupational footwear.)

Our products combine quality and durability, providing protection tailored to the diverse needs of professionals and their industry.

In addition, we offer a wide variety of safety footwear designs and colors that perfectly complement Velilla's uniforms.

CE Regulation

Hereafter, we detail a short description about the additional and basic requirements established by the European regulations on safety footwear:

EN ISO 20344

This regulation defines the testing methods for occupational and safety footwear. It is used alongside the regulations EN ISO 20345 and EN ISO 20347, wherein the requirements that footwear must comply with according to the risk levels are detailed.

EN ISO 20345 | Specification for safety footwear

This international standard details the additional and basic requirements for safety footwear, including mechanical risks: safety toe designed to resist a maximum impact of 200J and crushing up to a force of 15 kN, slip resistance, thermal risks and ergonomic characteristics.

EN ISO 20347 | Specifications for work footwear

This international standard details the additional and basic requirements for occupational footwear that is not exposed to any mechanical risks (impact or compression).

SB

Toe with impact resistance up to an energy equivalent to 200 J and compression force of 15 kN.

SR

A

Anti-static footwear with resistance over 100 kΩ without surpassing 1.000 MΩ

E

Energy absorption in the heel area not superior to 20 J

Insole

Insole with a resistance to perforation up to 1.100 N

WPA

Resistant to water penetration and absorption

Lugged outsole

Insole with a resistance to perforation up to 1.100 N

FO

Hydrocarbon-resistant sole

S1

S2

S3

SB	Slip resistance
Oblig.	Ceramic floor with detergent
Opt.	Steel floor with glycerine
SR	Oblig. + Opt.

S1	Resistance to perforation

UNE-EN 61340-5-1 Electrostatic Protection

This type of footwear is used when it is necessary to minimize the risk of electrostatic charge build-up, allowing it to dissipate as quickly as possible. It is particularly suitable for use in environments where electronic control machinery or equipment is used and offers additional performance in conditions where electrical resistance is less than 100 kΩ.

Denim

Do you know our Denim range?

Denim has been a part of workwear for decades, as it is designed to be **durable and comfortable**. At Velilla we have raised the stakes by creating our denim collection, even more comfortable thanks to our **Stretch fabric**.

Furthermore, in their production, **70% less water** is used compared to conventional jeans. This is how we protect the planet and all of us living on it.

Food Industry

Our range of garments and accessories is intended for workers involved in food handling and packaging processes. The difference being that they are specifically designed not to release elements and to avoid pollutants. These are specific garments that help to maintain the hygiene and safety of workers and products.

We also have a full range of garments adapted to work in cold environments as well as a range of disposables.

Healthcare and Services

Our versatile range of scrub sets, lab coats and accessories is available in a carefully curated and attractive selection of colors. These garments stand out for their quality, reliability, and above all, comfort—thanks to the composition and stretch of their fabrics.

Made from high-performance textiles, they promote hygiene and comfort: two essential qualities for professionals in healthcare and service sectors, including hospitals, nursing homes, veterinary clinics, as well as those working in aesthetic clinics, spas, wellness centers, or cleaning services, among others.

Introduction to the Healthcare and Services family

At Velilla, we understand that the demands of healthcare and service environments require **fabrics that meet high standards**. That's why we work with materials that ensure **hygiene, comfort, durability, and freedom of movement**. From microfibers and stretch technology fabrics to classic twill, our selection is **designed to meet professionals' needs without compromising on design or sustainability**.

Discover our fabrics:

Our **Essentials** collection is made with PURE STRETCH fabric, **GRS certified**, known for its **elastic, antibacterial, and breathable** properties. **Soft** to the touch, **water-repellent**, and suitable for **washing at 60 °C**, this collection reflects Velilla's commitment to innovation and evolution.

Smart Micro+fiber

Smart Antimicrobial Protection

Our high-performance **Smart Microfiber®** fabric with **SilverPlus®** treatment is the **best solution for hygiene, protection and freshness**. Our microfibre is characterised by its **softness, elasticity and breathability**. Thanks to its **silver ionic finish**, it protects fabrics from odour-causing bacteria. In addition, its **water-repellent finish** transports body moisture away from the fabric.

Our **stretch sanitary fabric** is always a guarantee of success. With this range of sets you will enjoy the main advantages of our well-known **stretch fabric**, characterised by its **softness**, **durability** and **great recovery capacity**. These garments provide professionals with an **extra sense of comfort**, thanks to their **pleasant texture and soft feel**, and allow them to have **great freedom of movement**.

PolyCotton

Our **high-quality twill fabrics** are characterised by their **high durability** and **pleasant wearing comfort**. As well as being **soft to the touch**, it is very easy to maintain: it is **very easy to wash**, **does not fade or warp**, which makes this range the right **choice for all professionals**. Thanks to its remarkable durability, you can enjoy a **longer garment lifespan**.

Hospitality

Worker uniformity plays a key role in the customer experience. That is why we offer a wide variety of solutions for both kitchen and dining room: design and functionality serving professionals.

We have a range of jackets and trousers designed for kitchen teams. Modern, resistant garments for dining room teams, giving them style and freedom of movement. And to complete the uniformity, an assortment of accessories and aprons are available in a wide range of colours.

There's so much more to see! Explore all our items on our website.

SHIFT WOMAN

— Our fabrics

Kitchen professionals' work is highly demanding due to the constant challenges they face on a daily basis. For this reason, we offer a selection of garments incorporating **high-performance fabrics** and a **variety of comfortable and attractive designs**. With Velilla, your uniform will become your best kitchen help.

Our stretch fabric stands out for its elasticity and softness, favouring the user's freedom of movement and comfort. In addition to their **durability and resistance** to tearing, these garments are always a good choice, as they are easy to maintain, thanks to their **wrinkle free, quick-drying fabric**.

Our Smart Microfiber® fabric provides softness, elasticity and breathability. In addition, due to its SilverPlus® finish, a treatment composed of **antibacterial**, silver ions, it stands out for providing **hygiene, protection and freshness** to the user. And to top it all off, it is very easy to maintain thanks to its **anti-wrinkle and liquid repellent** properties.

Coolmax® fabric makes the garments a sensible choice when it comes to equipping kitchen professionals, as it helps **evaporate humidity and favours breathability**.

This fabric has been designed to generate a circulation system that moves moisture away from the skin to the outer layer of the fabric, while **regulating the user's body temperature**.

NEW New denim jackets

Our new denim jackets arrive with a modern style, available in three shades and in both unisex and women's fits. A fusion of design, comfort, and character to stand out in the kitchen.

Aprons and accessories

Trendiness and Sustainability

Sustainable aprons and accessories in trendy colours, with extra functionality thanks to their water-repellent properties and ergonomic design.

A different touch

Adding creative flair to your uniform is easy with our designs and colour and fabric combinations, where style reigns.

Denim stretch

Discover our denim line: urban style, total comfort. Made with stretch fabric for greater freedom of movement.

Functional simplicity

Our 100% polyester aprons are lightweight, durable fabric with less wrinkles.

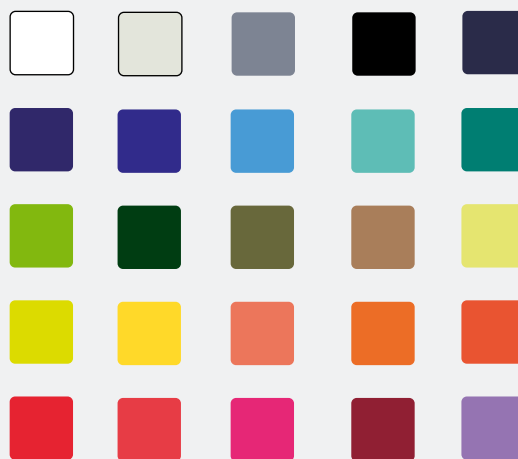

25

Full colour

In the hospitality industry, uniformity plays a key role in defining the concept of each business. Because every detail counts, we offer you a complete range of **aprons and accessories available in 25 attractive and vibrant colours**. Elements highlighting colour within the uniform while protecting the professionals' garments and facilitating their work. Discover all our designs and colour palette.

Regulations

EN ISO 13688

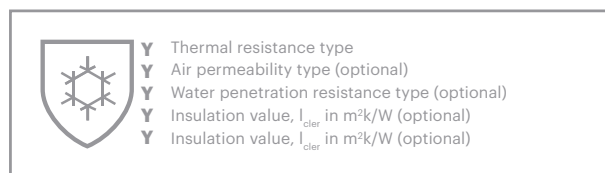

Protective clothing.

This standard specifies the general requirements for ergonomics, safety, sizing, aging and labeling of protective clothing. It can only be used in conjunction with other regulations.

EN 14058

Cold Environments.

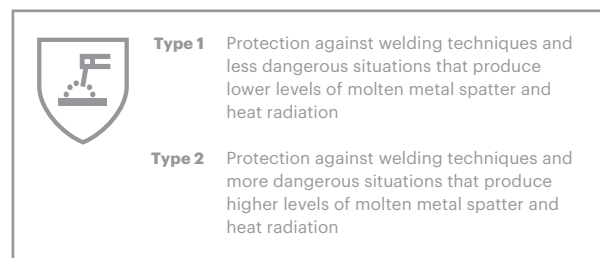

Protection against the effects of cold environments between -5°C and 10°C.

EN ISO 11611

Welding and related processes.

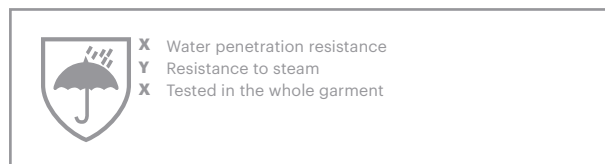

Protection against splashes, short contact with flame and radiant heat from the electric arc. Minimizes the risk of electric shock from contact with conductive materials.

EN 343

Rain.

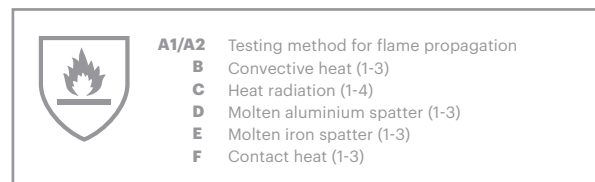

Protection in environments defined by the possible combination of these conditions: rain, fog, soil moisture and wind at temperatures down to -5 °C.

EN ISO 11612

Heat and flame.

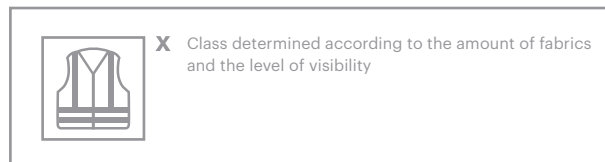

Protection against exposure to radiant, convective or contact heat and molten metal splashes. Limited flame spread.

EN ISO 20471

High Visibility.

User visibility under daylight and / or under headlight illumination in the dark (in high-risk situations).

EN 1149-5

Electrostatic properties.

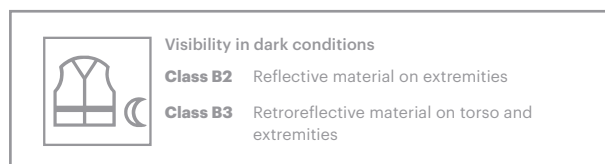

Garments with electrostatic dissipation properties to avoid incendiary discharges.

EN 17353

Enhanced visibility.

User visibility under daylight and / or under headlight illumination in the dark (in medium risk situations).

EN 13758-2

UPF.

Garments certified under the EN 13758-2 standard protect against UVA and UVB radiation, with UPF 40+ being the maximum value that can be indicated according to the standard, although in practice it can cover higher values such as UPF +50.

Sizes

These tables serve as a reference when deciding what size the user needs*.

The measures given on the tables are not the measurements of the garment but correspond to anatomical measurements taken from the naked human body.

When we manufacture a garment, we must add slack to achieve optimal comfort and convenience. This looseness varies according to design, fabric, gender, etc. making it a more or less fitted garment.

* Not all references are available in all sizes shown in the tables.

Contours:

A Head **B** Chest **C** Waist **D** Hips

i Bear in mind that, in order to take the correct sizes, you will need to measure the entire contour.
